The final plan of study should match your approved proposed plan of study modified by any change of plan of study form approved by your advisors. Change of plan of study forms, signed by the primary advisor and IISP director, should be on file or be submitted with your final plan. Be sure your final plan of study includes:

(1) at least 36 credits of 2000-level or higher courses in two or more departments. (If your approved plan of study at admission included more credits, then you must complete that number. Any changes in total number of credits must be approved by the primary advisor and IISP director.)

(2) the core elements of your approved plan of study, such as research methods course, experiential learning, capstone, two writing-intensive courses.

See summary of CANR IMJR requirements on the back of this form. For requirements specific to your IMJR, consult your approved plan of study and acceptance letter. Contact the IISP office with any questions.

DOUBLE MAJOR or ADDITIONAL DEGREE students, attach (1) copy of other final plan of study and (2) completed double major/additional degree worksheet.

Grad notes(for IMJR Program use):

College of Agriculture and Natural Resources Individualized Major

An individualized major has a minimum of 36 credits from courses at the 2000-level or higher which must:

- Be from two or more departments
- Include at least 18 credits from departments in the College of Agriculture and Natural Resources
- Be approved by the student's advisory committee
- Be taken at the University of Connecticut or in University of Connecticut Study Abroad Programs
- Have a combined major Grade Point Average of at least 2.5
- Include no more than 6 credits of Independent Study and Internship
- Not be taken on Pass/Fail
- Meet all requirements of the "36 Credit Group" of the College of Agriculture and Natural Resources.

To satisfy the general education requirement for the computer technology competency, Individualized Majors must meet the University's entrance expectations. They will not have to meet any advanced requirement for computer technology.

The writing in the major and information literacy requirements will be satisfied by meeting these requirements for any of the majors within the College of Agriculture and Natural Resources.
